

versally pronounced a foul murder, even by those who were friendly to the cause pursued by Hildy but it had not been the hon. member to come to Parliament and to raise the question he had with that industry which had characterized his remarks, and justify that act. He had thought proper to attack the hon. member for Leger, who was not in his place. He (Mr. Hildy) questioned whether the hon. member had not been placed to have uttered those words had the hon. member for Leger been present. It was well known that the gathering of the Canadian party had taken place long after the disturbance had broken out, and some time after the event at Stinking River, yet the hon. gentleman had seen fit to take advantage of the absence of the hon. member (Dr. Schull) to attribute the whole disturbance in the North West to him, and to become the apologist of a murderer, and the defender of his acts. The tone and line of argument of the hon. member who introduced this motion was of such a peculiar character that the House was in doubt as to his real meaning, and as to what he really meant. It was difficult to tell from his remarks whether he desired Hildy punished or pardoned. So difficult was his line of argument from that used during the late session of the Ontario Parliament that it was not until the hon. member (Dr. Schull) had taken the floor, and listened to him, that he was playing the role of his party for party purposes. During the late session of the Ontario Parliament that it was not until the hon. member (Dr. Schull) had taken the floor, and listened to him, that he was playing the role of his party for party purposes.

stage. The Martin Divorce bill was read a second time on a division, the vote being 78 and 89, and passed through committee.

Some discussion took place in Committee on Mr. Cartwright's bill for the better protection of steamers and rivers. The bill was read a second time and reported.

The House adjourned at eleven o'clock.

Mackenzie Floored.

The Grip during last summer had a great deal to say about Government officials interfering with the elections. They were in view of these facts it all became the leader of the Opposition to accuse the Government with political motives in denouncing postmasters, as he did in a few days since on the floor of the House.

The question, as will be seen by the following report from the Ottawa correspondent of the Mail, was pretty well ventilated, and so disgusted was one of the members of the Opposition—Dr. Broome, who is a member of the Opposition, that he took occasion to denounce, in most emphatic terms, the attacks on the Government. But he remained for Mr. White, the member for Red River, to give the leader of the Opposition his guide and the effectual manner in which he will be seen as reading the following report:

"The debate last night on the motion for the papers connected with the dismissal of postmasters and the effectual manner in which he will be seen as reading the following report:

TOWN AND VICINITY.

Discount on American Invoices is now 15 per cent—the highest rate since August, 1870.

The Kingston Way says August Arrivals, a substantial Italian, will preach in Belleville on Sunday.

The regular monthly meeting of the Y. M. C. A., will be held this evening in the O. R. A. A large attendance is expected.

We omitted to state yesterday that the sale of useful and fancy work by the ladies of St. Thomas' Association—held on Tuesday—was quite successful, the proceeds of the sale amounting to over \$200. The concert in the evening was of a very pleasing nature, and attracted a large attendance.

We are glad to see so many engaged in planting shade trees in front of their places this spring. They realize that the value of their property is greatly enhanced thereby, besides adding to the comfort of themselves and neighbors. If every property owner on Taylor's Hill would have a tree set out in front of his property this spring, in a few years it would become a perfect paradise.

A correspondent, who signs himself "Crescent," thus gives an account of the operations of the workmen on the market place, and the mainmaining of the square before the crossing are put down, and a sidewalk built along the northern side of the building. "Heard the want of a place in front of the new market building, a pile of brick is placed so as to compel pedestrians to walk over broken stones, and to be 'McAdam,' of an unusually large size. Ladies and children are in danger of great injury to show neither. I cannot see why anyone should be allowed to interrupt our thoroughfares when building, and in this case a passage of at least three feet wide ought to be insisted upon.

A correspondent writes us as follows regarding the Court House in Belleville: "I am to ask you a few questions about our Court House. I had occasion to visit the Court House about a week since, and while there, I saw that the grounds are in an unfinished state. There were several untidy heaps of gravel on the upper terrace, which would look better spread on the walks, which are partly laid out, but not finished. I saw that some trees are planted in their proper places, but there is a quantity of trees and shrubs planted all together in a heap, which look as if they had been put there in the fall, for the reason, I suppose, that they would be there convenient to plant in the spring. Now, Mr. Editor, there could not be any better weather than the present for planting trees, and tidying up grounds and gardens. Then why is the gentleman, whom the Town Council employed to superintend the work, not finishing his job? I see him in town occasionally. Is there a high commission? Surely it is time that it should be looked after."

Miss de Montford failed to attract an audience last night.

It is thought that the summer Term of the Grand Trunk Railway will come into operation on or about the 10th of May.

As an evidence of the growth of the trade at the Belleville Station on the Grand Trunk Railway, it need only be said that the passenger freight traffic has increased the past year at least \$20,000.

The Live Stock traffic on the Grand Trunk Railway is getting to be something enormous. For some time past the trade has averaged three trains a day going East from Chicago to Boston, principally Texas cattle.

Telegrams from Cornwall and Colonel Landing, say that shocks of an earthquake were felt yesterday afternoon between five and six o'clock. Parties here remarked they felt the shock of an earthquake about five o'clock, yesterday morning.

Within the last few days, a train of emigrants, averaging 800 emigrants each train, have passed west on the Grand Trunk Railway. They were chiefly English, the great part of whom remain in Canada, and 700 of the emigrants got off at Cobourg, where they were provided for by the Emigrant Aid Society, and furnished subsistence at once.

Two men of the Temperance Association of the Holy Cross township, in a considerable number, and marched in procession, headed by the band of the 40th, to St. Michael's Church, where a sermon was preached by the Rev. V. G. Farrelly. The procession was very respectable in appearance and creditable to those who took part in it.

The entertainment given by the B

Belleville, Nov. 11, 1872.

George Coburn & Bro.,
Will offer to the Trade and customers, **Port & Sherry Wines** AT COST PRICE.

BROWN'S OLD BRAND, BELLEVILLE
December 10, 1872.

Only One Dollar. 10,000 SOLD.

It is safe to say that of all the inventions of the present day, none have created more associations than the **LONDON REPEATING WATCH.**

The idea of making a watch for the small sum of One Dollar, seems an utter impossibility, but it has been accomplished, and the most perfect time indicator produced, which the world has ever seen. Besides that, each watch comprises a Compass and Run Dial, without extra cost. The London Repeating Watch is got up in the most elegant style with a handsome case of solid metal, which is an exact imitation of Gold, glass crystal and metal works, and a fine enamel dial. Each one is warranted to run for an ordinary run time, and to keep in order for two years. Reduced to the same price as a Run Dial, a perfectly accurate Compass, worth of itself twice the amount charged for the whole watch. Every one wants one, everybody can have a Watch for himself. Agents, Belleville, do, make \$10 a day selling them. A sample sent on receipt of \$1, or five for \$4. Send all sums over \$5 by registered letter to the Publishers, Agents for Canada.

AT COST PRICE.

BROWN'S OLD BRAND, BELLEVILLE.

December 10, 1873.

Only One Dollar.

10,000 SOLD.

It is safe to say that of all the inventions

of the present day, none have created

more astonishment than the

LONDON REPEATING WATCH.

The idea of making a watch for the small

size of One Dollar, seems an utter impos-

sibility, but it has been accomplished, and

the most perfect time indicator produced, which

the world has ever seen. Besides that, each

watch comprises a Compass and Bar Dial,

without extra cost. The London Repeating

Watch is got up in the most elegant style,

with a handsome case of gold metal, which

is an exact imitation of Gold, glass crystal,

and metallic work, and a white enamel

dial, and of the size of an ordinary

watch. Each one is warranted to keep

time, and to keep in order for two years.

Enclosed in the same case is a Box, and a

perfectly accurate Compass, worth of itself

twice the amount charged for the whole

Watch. Every one wants can, everybody

can now have a Watch for himself. Agents,

Peters, &c., make \$10 a day selling them.

A sample sent on receipt of \$100 for \$10.

Send all sums over \$10 by registered letter

No. 4.

True Freedom--How to gain it

BY CHARLES MACART.
—
We want no flag, no haunting flag,
For liberty to die.
We want no blaze of murderous guns
To struggle for the right.
Our spears and swords are pointed words,
The mind our battle plain,
We're won such victories before,
And so we shall again.

—
We have no triumph sprung of force—
They strain her brightest chain,
'Tis not in blood that liberty
Inscribes her avails.
She sets them on the people's hearts,
In language clear and plain,
True thought has moved the world to aid
And so they shall again.

We yield to none in earnest love
Of freedom's cause sublime.
We join the cry, "Fraternity"—
We wrap the martyr's name
And yet we grasp no pick or spear
Our victories to obtain,
We're won without their aid before,
And so we shall again.

We want no aid of barricade
To show a front of war;
We have a claidel of truth,
More durable and strong.
Calm we'll meet great things undaunted
Have never flinched in vain,
They've won our battle many a time,
And so we shall again.

Peace, progress, knowledge, brotherhood
The counsel man should heed
The bad deed—but we only
To set their triumph clear.
No widow's gown shall lead our cause,
No aid of brother's hand
We've won without such aid before,
And so we shall again.

Flowers in Cemeteries.

A cemetery is most certainly the

place for a profusion of flowers, [Galle] door monumental decoration, hence, for the most beautiful and appropriate. Those who have money to spend upon the habitation of their friends and relatives and who piously desire to show their love and sorrow by some sort of outward sign will not more wisely be paying some of the toll to the cemetery gardener to keep their graves in flower and green and pretty, than they will do what some of our poets, attempting to do what the ancients did, do themselves, resulting in half-accented and stonemason's, or triphonic canonic bells and swordcocked tails, and either such insignificant as the "profane" cancer of the breast. The sums of money spent on the great ponderous symbolical monuments are often very large. But who that is groined in presence of some hideous combination of corbels and skeletons and snakes and horned heads of broken col-

and ponderous marble clouds, and whilst the beauty of these flower-groves, will not testify to the superiority the gardener's work over that of the mason! Flowers suggest, at least, a hint continued supervision, a daily test and care, which favors the idea that to whose memory they are sacred, as held in remembrance by their friends, the Year Round.

Six Good Lines.

Mr. Greeley's statements of what he knew about farming have long been known to many of us at that place and good man. Not very long previous his death he laid down some maxims that subject which a good man who been tillers of the soil from childhood old age would do well to take heed

"1. That the area under culti-

should be within the limits of the cost of seed and labor employed; or, in other words, that, on unpurified soils, no one can cultivate more than he can enrich with manure or fertilizers, be it one acre or twenty.

"3. That there should be a law compelling every man to prevent his stock from depredating on his neighbor's fields.

"4. That green sowing is more economical than loose pasturing.

"5. That deep tillage is essential to a good farming.

"6. That the muck-heap is the best bank, and that everything should be added to it that will enlarge it and at the same time increase its fertilizing properties.

"7. That no farmer or planter can depend upon one staple alone, but

Who that has not travelled by cars in the days has not been a witness many times to the swinish disposition of certain people who do not understand what belongs to the manners and cover care for any but themselves? An exchange takes place between a class of persons very appropriately follows—"it would be amazing, were I unpleasant, to witness the disposition many selfish persons on railroad trains, to grab all the seats they can, and, when

transaction has become a serious matter. We admit, of course, the right of an individual to look out for his own interests, and selfishness is too mild a term for the purpose—in a multitude of cases it is concealed downright dishonesty. For a married wife, when other passengers are going car to car, looking for accommodations, to turn the back of a seat and put a couple of valises in such a position as to give the effect that they belong to persons who have the place, and will be back in a few minutes without any figure of speech, a fraud upon the other passengers, and one for which respectable people ought to be ashamed.

LONDON REPAIRING WATCH.

The idea of making a watch for the small

sum of One Dollar, seems an impossibility,

but it has been accomplished, and the

most perfect time indicator produced, which

the world has ever seen. Besides that, each

watch comprises a Compass and Bar Dial,

without extra cost. The London Repairing

Watch is got up in the most elegant style,

with a handsome case of Gold, steel, crystal,

steel and metal, and a white enamel

case, and is of the size of an ordinary

watch. Each one is warranted to denote

correct time, and to keep in order for

Fortnight in the same case as a fine Dial

and a perfectly accurate Compass, every of

which the amount of time lost or gained

per day is shown. Every one wants one, every

one who has a watch for the London Repairing

Watch is got up in the most elegant style,

with a handsome case of Gold, steel, crystal,

steel and metal, and a white enamel

case, and is of the size of an ordinary

watch. Each one is warranted to denote

correct time, and to keep in order for

Fortnight in the same case as a fine Dial

and a perfectly accurate Compass, every of

which the amount of time lost or gained

per day is shown. Every one wants one, every

one who has a watch for the London Repairing

Watch is got up in the most elegant style,

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL.—CHURCHMAN.

No. 6

The Christian Cavalier.

It's only an Indian squaw
 Who carries my sword laid low;
 Only a half-wolf's scalp
 That hangs at my saddle bow,
 That marks the wreck of the home;
 Lies smouldering by the smoke;
 One, two, three, four—all dead—
 The white man may drive his stake.

No need to bury her babe,
 'Tis laid to rest the same;
 A child shall not live to boast
 That he bears the Modoc name.
 The stars in our flag are white,
 And only the whites protect—
 Down with the spawn of hellspawn,
 We Christians are the elect.

The Bible! Psalm! Send down

The plainest phrases we sight
Noblest words that I can now devise,
A check to the few who smile,
Have I been and mother?
You may say I wrote; and then
This is the light of the year,
Whose call might have murdered man,
N. Y. Graphic.

THE MASSACRE.

BRACE COMMANDER MODOC TELL THE
STORY OF THE MODOC TREASON.

(Copyright of the N. Y. Herald.)

WASHINGTON, April 28, 1878.

The following letter, received at the Interior Department, Saturday, says, gives new and interesting particulars of the late Modoc massacre:

HEADQUARTERS, CAMP SOUTH SIDE,
TULSA LAKE, CAL., April 16th.

SIR: O. D. Smith, Secretary of the Interior, has since our arrival at the lake, been the Commission, together with General Janby, had labored faithfully and had apparently gained several points over the Indians, looking to a peaceful solution of this

They had thwarted all their schemes of reachery through the fidelity of my interpreter, Mr. Riddle, a Modoc woman. On the morning terms were agreed upon for a meeting, satisfactory to Dr. Thomas and General Canby, though not to Mr. Dyer, nor myself, nor the Modoc woman. General Canby remarking that

THEY DARE NOT MOLDEN US.

because his forces commanded the situation, and Dr. Thomas said where God called him to go he would go, trusting to his fate. The meeting was held at the time and place agreed upon, Canby, Macmahon, Thomas and Dyer and eight armed, instead of six unarmed Indians, as was agreed upon. The "talk" was short, the Modocs both saying that unless the soldiers withdrawn from the country no further talk would be had. Up to that

soldiers would never be withdrawn until the difficulty was settled, and still extending.

THE OFFER OF AMNESTY.

General Sherman and his staff were anxious to obtain a satisfactory peace and ample provisions for the future of the Indians. The reply from both chiefs was:—"I take away your soldiers and we will talk about it."

General Custer assured the Indians that he was here for the protection of both parties, and that the Commissioner would faithfully fulfill his promises.

THE MARCH.

About this time two armed Indians suddenly appeared from the brush in our rear. An explanation was asked, and Captain Custer replied by snapping a pistol at General Sherman. The latter replied:—"I am here which General Custer was dispatched by Captain Jack, with a pistol and knife, and Dr. Thomas by a pistol shot in the breast and gunshot in the head by Sotom. Sherman and Dyer attempted to escape by a short camp, the former followed by Sotom. Sherman John and the latter by Black Jim and Hook Jim. Sotomochi fired

HOK JIM AT MERRIAM.

killing him four times and leaving him for dead. Boston attempting to leap him was deterred by a Moccaw woman. Dyer was shot in the back of the head by the woman by Black Jim, who was only a few feet away, and by Hooker Jim, by whom he was pursued. After running about two hundred yards he turned upon his pursuer with a small pocket arrangement when the latter shot him in the back of the head, thus letting

to get away. Mr. Dyer will be obliged to leave in a day or two on account of the illness of his wife. The chairman of the Commission will consult with General Gilliam should any active measures be necessary on our part. We believe that complete success will be achieved by the aid of the cavalry, but the latter is very likely to be delayed by which to deal with the Indians. Very respectfully,
A. B. MEACHAM,
Chairman, Modern Peace Commission.

A REGULAR PORKER.—An ingenious anecdotal with a turn for mathematics has just been found that there is one pig to every one and four-teeths of a man in the United States. There is nothing singular that every man should have a pig, but while four-teeths of a man buys a pig to every woman a master of deep intellect to the worst who ever strove after a higher civilization.

The mild interest pictures this four-teeths of a man has for a pig, and with that pig and backing up against fence, and plashing into mud, and kicking at the animal just long enough to make it and swing over its balance. While the army of pigs is so large that no whole man can ever have a pig in the right direction, we can well believe that four teeths of a man wrestling with the animal would be a small feat. It is a pity that the pig is so much at the mercy of the man, but that is nothing to be deplored. This, of course, is confidential.—Denbury News.

The Most Wonderful Invention
OF THE AGE.
J. Moore Electro-Galvanic, Pat. June 24, 1868
ATTACHED to these patented Specimens
are two scientifically constructed Galvanic
Batteries—unlike when worn, delivering
through the nerves of the head a soft
and continuous stream of Electricity, vital
and giving healthy action to the entire
beneficial system of those parts absolutely
entirely cured. Partial Paralysis of the
Optic Nerve, Weak or Disturbed Vision,
Neuralgia of the Head or Face, Nervous
Twinges in the Muscles of the Arm, Numbness
in the Head, Loss of Mental Energy, and a
host of nervous diseases, arising from
depression of the nervous energy of the system;
contributing in a most satisfactory manner to
LIFE, VIGOR and HEALTH by the means
of the soft and flowing stream of Electricity,
giving brightness to the eye, quickness to
the ear, and energy to the brain. They are
not with lenses of thin glass, as those
to suit all eyes, and with glasses for those
not needing spectacles to read, but being
the best in the world for reading, the
Batteries can be had in this vicinity
only of

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—QUANTITY IN ALL.

No. 10.

DOMINION - 2000000

DOMINION PARLIAMENT

ANOTHER QUESTION OF PRIVILEGE.

—

OTTAWA, May 8th, 1878.

Mr. MACKENZIE, on a motion to go in Committee of Supply, again brought before the House of Commons the question of the course pursued by the Post Office Inspector, Mr. Griffin, of the Western District, at the last election, and condemned in severe terms the interference of officials in writing to employees of the Government in order

candidate. During the speech he referred to the charge which was made at East Hastings, brought against him, having ordered a Commission which began sent to Belleville, appointing a general inquiry. Magrath, sent back to Toronto for political reasons. The subject he said: "Before sitting down would refer to another matter. When mentioned this subject before, the member for the county of Hastings (Mr. Mackenzie) told the House that he had written to the Minister in Ontario in the absence of the Minister South Bruce, had required the commission that was issued, to place a gentleman in county, in the commission of the peace for the county of Hastings. He was the opponent, and that Mr. Magrath, as a political candidate, had boasted that he intended that to be done. He had received the following telegram from Mr. Holden: 'Mr. White's remarks reported in to-day's paper are completely untrue. I have no authority for his statement. I have no statements in using the transaction as a piece of electioneering card, are untrue. I am

new year until after the commission had been returned. The man was objecting to mention in every respect." He felt bound to submit this matter because two or three of the Ministerial papers had stated that he had allowed the charge to go uncontradicted. He had reasons which he was not bound to give to the House for the Executive's acquiescence in that matter." (Hear, hear and laughter.)

To these remarks the members for the North and Hastings replied as follows:

Mr. WILKINSON (North Hastings), said there was no man in the House who so much as necessary to use the telegraph, so much as the member for Lambton, in defending his own character. He repeated, that he had not Mr. Holden in the Returning Officer's office, and that after leaving there, Mr. Holden had told him that he had got Mr. R. R. Bowtell's commission refused, to show Bowtell that

Ontario Government; previous to this (White) knew nothing about the commission having been issued. As to Mr. Holden's telegram denying the truth of the statement, he was quite willing it should be published, with his statement, and let the people of Hastings to say, whether Holden or himself stated the truth.

Holden had said the man was not qualified for the position. The position that he held as Clerk of the Court would qualify him for the other position, and he had yet to learn that Mr. Reid's abilities were not equal to those of Mr. Holden. He was anxious to see a leader of a party wasting the time of the House in such matters, as for himself he could rise above this petty opposition to post-office matters. He believed that any objection to the appointment of Mr. Reid was a waste of time.

that everybody and every other should have the right to vote as his conscience dictated. Previously to coming down here he had met Mr. Wallbridge, the Speaker of this House, who had asked him what course he intended to pursue in Ottawa. He answered that he would support the Government if they continued to pursue their present course. Wallbridge had said, so far as he was personally concerned, if he was in the House, he would support the Right Hon. Sir John Macdonald and Mr. Alexander Campbell. Mr. Wallbridge had said also that when that Government, which was of ability, were influenced in building up the country, the Opposition would be asking some two-penny half-penny question.

Mr. THOMPSON, (Haldimand).—By

Mr. WHITT.—Yes, and may you long main there. (Laughter.) The hon. member for Lambton should not forget when he held office for a short time, of his associates got up in his night and sent a man up to a certain town to corrupt the people. He should not get that he had dismissed a gardener cause he was not up early enough. He should not forget that a Commissioner taken away from a man for his political feelings. The hon. gentleman thought the country should worship him. There is one thing sure that it would not, would have to change his policy before would follow him. There was no department of the Government so well as honestly managed as the Post-Office

partment, and he would stand up for the management of it and for the Government so long as they strove to make the country what we all wished it to be, great and prosperous. (Hear, hear.) The speaker knew that there was a post-master in his own district who opposed himself, and who certain parties applied to the Postmaster General to have him dismissed, the reason was that he was a good postmaster and would not be dismissed. As for the Post Office Inspectors they were always ready to be always ready willing and anxious to discharge their duty for the good of the Post Office Department. If this motion was carried, the honor member of it would do an injury to the Department and to the officers of it. He might say that in North Hasting everyone of the postmasters

George Coburn & Bro.,

Will offer to the Trade and customers,

their whole stock of

Port & Sherry Wines

AT COST PRICE.

BROWN'S OLD BRAND, BELLEVILLE.

December 10, 1873.

Only One Dollar.

10,000 BOLD.

It is safe to say that all the inventions

of the present day, none have created

more astonishment than the

LONDON REPEATING WATCH.

The idea of making a watch for the small

sum of One Dollar, seems a little impos-

sible, but it has been accomplished, and the

most perfect time indicator produced, which

the world has ever seen. Besides that, each

watch comprises a Compass and Bar Dial,

without extra cost. The London Repeating

Watch is got up in the most elegant style,

with a handsome case of Gold metal, which

is an exact imitation of Gold, glass crystal,

steel and metal works, and a white enamel

dial, and is of the most accurate and

reliable. Each one is warranted to denote

correct time, and to keep in order for two

years. Enclosed in the same case is a Box Dial and

a perfectly accurate Compass, work of itself

twice the amount shown on the London Repeating

Watch. Every one wants one, everybody

can have a Watch for himself. Agents,

Pellier, & Co., make \$10 a day selling them.

A sample sent on receipt of \$1, or \$10 for \$1.

Send all some \$1 by registered letter to the

Manufacturers Agents for Canada.

The Savages in a New Stronghold.

Death of Lieut. Harris.

A Steamship with Small-pox on Board.

Murder of a White Girl by a Negro Boy.

Death of a Duelist.

San Francisco, May 14.—A despatch from

Yreka to-night says the Modocs are in another

risky fortress, which they are making still

stronger. The troops will not attack them

until the arrival of reinforcements. Their new

position is about 20 miles south of their last

stronghold.

Burgess has seen "Bugs" Charlie on the

upper Klamath, who says he has been

about the country lately, and has seen

himself. The Modocs are now in the

vicinity of the mouth of the Klamath, and

are making a new stronghold. The

troops will not attack them until the

arrival of reinforcements. Their new

position is about 20 miles south of their

last stronghold.

 Solicitors for Applicant.

Prince Edward Island.

PLAN TO COMPLETE THE CONFEDERATION OF THE PROVINCES.

THE RESOLUTIONS.

OTTAWA, May 16.—In the House of Commons this afternoon, the Hon. Mr. Tupper presented a message from His Excellency the Governor-General, in relation to the Union of Prince Edward Island with the Dominion, containing the following resolutions:

That it is expedient to provide:—
1. That Canada shall be liable for the debt and liabilities of Prince Edward Island at the time of the Union.
2. That in consideration of the large expenditure authorized by the Parliament of Canada for the construction of railways and canals, and in view of the possibility of a readjustment of the financial arrangements between Canada and the several Provinces now embraced in the Dominion, as well as of the isolated and exceptional condition of Prince Edward Island, that Colony shall, on entering the Union, be entitled to a debt equal to \$750 per head of its population, as shown by the census returns of 1871: that is to say \$4,701,000.

3. That Prince Edward Island, not having incurred debt, the sum authorized by the next preceding resolution shall be applied to the payment of the debt of the Dominion, at the rate of five per cent. per annum on the difference from time to time between the actual amount of indebtedness and the amount of indebtedness authorized as aforesaid, viz., \$4,701,000.

4. That Prince Edward Island shall be liable to Canada for the amount, if any, by which its public debt or any liabilities at the date of the Union may exceed \$4,701,000, and shall be chargeable with interest at the rate of five per cent. per annum on such excess.

5. That as the Government of Prince Edward Island holds no lands from the Crown, and consequently enjoys no revenue from that source for the construction and maintenance of local works, the Dominion Government shall pay, by half-yearly instalments in advance to the Government of Prince Edward Island, \$5,000 per annum less any sum not exceeding \$500,000, which the Dominion Government may advance to the Prince Edward Island Government for the purchase of lands now held by large proprietors.

6. That, in consideration of the transfer to the Parliament of Canada of the Dominion of taxation, the following sums shall be paid yearly by Canada to Prince Edward Island for the support of its Government and Legislature:—That is to say, \$40,000 and an annual sum equal to the highest per head of its population, as shown by the census returns of 1871, viz., \$4,031, both by half-yearly payments in advance; each grant of eighty cents per head to be augmented in proportion to the increase of the population of the Island, as may be shown by each subsequent decennial census until the population amounts to 400,000 at which rate such grant shall hereafter remain, it being understood that the next census is taken in the year 1881.

7. That the Dominion Government will assume and defray all the charges for the following services, viz:—
(a) The salary of the Lieutenant-Governor.
(b) The salaries of the Judges of the Supreme Court, and of the District or County Courts when established.
(c) The charges in respect of the Department of Customs.
(d) The Postal Department.
(e) The protection of the fisheries.
(f) The provision for the militia.
(g) The lighthouses, shipwrecked crews, Quarantines and Marine Hospitals.
(h) The Geological survey.
(i) The Penitentiary.
(j) Judicial services for the conveyance of mails and passengers to be established and maintained between the Island and the mainland of the Dominion in winter and summer, thus placing the Island in continuous communication with the International Railway, and the railway system of the Dominion.
(k) The maintenance of telegraphic communication between the Island and the mainland of the Dominion, and such other changes as may be incident to and in connection with the services which by the British North America Act of 1867, appertain to the General Government, and as are or may be allowed to the other Provinces.

8. That the railways under contract and in course of construction for the Government, shall be the property of Canada.
9. That the new buildings, in which are held the law courts, registry office, &c., shall be transferred to Canada on the payment of \$50,000—the purchase to include the land on which the buildings stand, and a suitable space of ground in addition for yard rooms.

10. That the steam dredge that is in course of construction shall be taken by the Dominion at a cost not exceeding \$25,000.
11. That the steam ferryboat owned by the Government of the Island, and used as such, shall remain the property of the Island.

12. That the population of Prince Edward Island having been increased by 15,000 or upwards since 1861, the Island shall be represented in the House of Commons of Canada by six members, the representation to be readjusted from time to time under the provisions of the British North America Act of 1867.

13. That the constitution of the executive authority and of the Legislature of Prince Edward Island shall be subject to the provisions of the British North America Act of 1867, and continue as at the time of the Union, until altered under the authority of said Act, and the House of Assembly of Prince Edward Island existing at the date of the Union shall continue as such, until the period for which it was elected.

14. That the provisions in the British North America Act of 1867 shall, except those parts thereof which are in terms made, or by reasonable intendment may be held to be specially applicable to, and only to effect one and not the whole of the

Provinces now comprising the Dominion, and except in so far as they may be varied by these resolutions, be applicable to Prince Edward Island in the same way and to the same extent as they apply to the other Provinces of the Dominion, and as if the colony of Prince Edward Island had been one of the Provinces originally united by said Act.

15. That the union shall take place on the 1st day of January by an Order in Council, in addition to that effect from the House of Parliament of Canada, and of the Legislature of Prince Edward Island, under the 14th section of the British North America Act of 1867, and that the electoral districts for which the time within which the laws and statutes of the Dominion shall be in force, shall be the same as those of the Dominion of Canada for each electoral district shall be held, shall be such as the House of the Legislature of the said Colony of Prince Edward Island may specify in their said address.

The Hon. Mr. Tupper has given credit to what he will move the House into motion of the whole on the resolutions.

Canton Ramsey Again.

This redoubtable champion of the Globe has been upon the carpet again, and it must be confessed, considering the sacred nature of the calling, does not appear in a very favorable light. Having made himself notorious in connection with the charges made against Mr. Dodge, and some of his acts not being in strict conformity with the character of his profession, an investigation was asked for by the House of Commons. The two specific charges which formed the subject of the investigation were, first, that he appropriated to his own use certain sums of money from the commission paid to Mr. Poirer's Church, Toronto, and second, that he uttered falsehoods with respect to Mr. Dodge. Both of these charges were proved to be true and the Commission so reported. This did not satisfy the House, who demanded another examination. His demand was allowed by the Lord Bishop, who was upset by Canon Ramsey's lawyers, who discovered that all such commissions must have been approved upon them. A new appointment will probably be made and the investigation completed in time to report to the House of Commons next month. It is unfortunate that such a scandal should have arisen. But Canon Ramsey has no one but himself to blame for the trouble developments have taken. As he has made his bed he lies in it.

Volunteers for Manitoba.

An order in the Canada "Gazette" of the 17th May, directs the raising of 100 men to replace the volunteers in Manitoba whose time has expired. Volunteers belonging to the 1st class are to be raised as follows: 50 men from Military District No. 8 (New Brunswick), 50 men from Military District No. 9 (Quebec). The 2nd class are to be raised from the Schools of Gunnery, in the following proportion, viz.—2 Sergeants, 3 Corporals, 35 Gunners and Drivers from the Kingston School, 1 Corporal and 35 Gunners and Drivers from the Quebec School.

Should the number of volunteers required from the Province of New Brunswick and Nova Scotia not be completed by the 30th instant, the number required to complete will be called for from the Provinces of Ontario and Quebec.

All volunteers, previous to being attested, will be required to pass a satisfactory military medical examination, and preference will be given to young farmers or skilled mechanics who, in addition to respectability of character, are desirous of settling in Manitoba. Period of service to be twelve months, or for a further period of twelve months if required.

Each officer and man who completes satisfactorily the full period of service for which he has engaged and is required, and who has not already become entitled to a pension, will be paid for previous military service in the Depot companies or in the Dominion Forces in Manitoba, will be entitled to a quarter's pay, or one hundred and sixty acres of land in the Province of Manitoba. The troops are expected to be at Collingwood about the 18th of June next.

The Kingston "News" of Saturday evening says: "The men of the 1st Battalion of the 4th Brigade are under orders to be ready to proceed to Manitoba at an early day."

Marine News.

FATHER PONT, May 19.—The *Sandwich*, from Liverpool, arrived at midnight on the 18th inst., 82 intermediate and 944 steerage passengers.

The first arrival for the season of that indispensable article, coal, is now in port, amounting for A. L. Bogart, per *Sch. Laurel*, from Oswego.

The steamer *Piston* arrived on Saturday night with a large amount of general cargo. The *latter* on her voyage, brought this morning taking 484 bbls. flour, 3 bbls. potash, 25 boxes (2,300 dozen) eggs, 7 casks of high wine, 31 bags potatoes, and sundry small articles.

The schooner *Etta Bell* and *Ontario* are loading lumber at Bathurst. Exports per *Robinson*: 2 bbls coal oil, 81 boxes soap. Per *Norfolk*: 1 chigger mill, 4 potash bbls, 1 iron pulley, 4 pos. coupling, 1 key in pulley, 3 kegs powder, 1 picture, 1 box safety soap, 1 sewing machine, 1 bag corn, 1 box in case, 8 cases medicine, 1 box sundries, 1 box soap, 1 can white lead, 1 keg red lead, 1 case mds, 1 case bittern, 1 case plantagenet water, 12 half chests tea, 3 boxes do.

The steamship *Melody*, (Temperley Line) passed Pointe à la Poudre yesterday at 9 a.m. The tug *Sumner* passed down the bay yesterday forenoon with two heavily laden barges in tow.

The following arrivals in addition to the above are reported at the Custom House: *Sch. Rainbow*, Oswego, light. *Barge England*, Oswego, light.

The following are the clearances: *Sch. Belle*, Charlotte, 1,700 railroad ties—Andrews & Pope. *Sch. Rainbow*, Oswego, 36,000 brick—W. A. Foster.

Sch. Gora, Oswego, 50,000 ft. lumber—Hathorn & Co.

An error occurred in Friday's issue regarding the cargo of the *Junonia*, which was stated as 1,000 bushels of rye, instead of 10,000 bushels as "a town paper" has discovered. Captain Howard, who makes out his own reports, and swears to their correctness before the Collector, is responsible for the error, which renders him liable to a penalty of \$400, but which was no doubt unintentional on his part. Taking this view of the matter, he may not feel inclined to thank his officious friends for their interference.

FROM OTTAWA.

OTTAWA, May 19. The Hon. Mr. Tilly was taken seriously ill on Saturday night, but is much better this morning.

Mr. Geo. Carter was to have left England on the 16th, but he has postponed his departure for another week, or until the weather gets warmer. He leaves a family behind him. The lumber yards are flooded and the lumber is being floated down the St. Lawrence River to more rapid.

The weather is magnificent.

A despatch from Prince Edward Island reports the whole Northern shore of the Island still blocked by ice.

TOWN AND VICINITY.

What came very nearly being a fire of serious magnitude occurred at the new Mercantile Warehouse yesterday. It was caused by a small fire in the barn, which started within a few feet of the main building, was discovered to be in fire, and in spite of the efforts of the firemen, it was not extinguished until the main building was nearly a total wreck. A horse and a cow which were in one part of it were rescued, but a number of hives were burned. Mr. Winkler, who owned the barn, was the only person who was not next to the burning barn, and pails of water were used with success in preventing the spread of the fire until the arrival of the fire engine, which, with but a scanty supply of water, kept the building wet.

The Hook and Ladder Company meanwhile worked with a will, tearing down the barn and portions of the house to which the flames had extended. Fortunately but a light wind was stirring at the time, which cleared the flames slightly to the east, or efforts to save the building would have been futile. The two specific charges which formed the subject of the investigation were, first, that he appropriated to his own use certain sums of money from the commission paid to Mr. Poirer's Church, Toronto, and second, that he uttered falsehoods with respect to Mr. Dodge. Both of these charges were proved to be true and the Commission so reported.

This did not satisfy the House, who demanded another examination. His demand was allowed by the Lord Bishop, who was upset by Canon Ramsey's lawyers, who discovered that all such commissions must have been approved upon them. A new appointment will probably be made and the investigation completed in time to report to the House of Commons next month. It is unfortunate that such a scandal should have arisen. But Canon Ramsey has no one but himself to blame for the trouble developments have taken. As he has made his bed he lies in it.

The Hook and Ladder Company meanwhile worked with a will, tearing down the barn and portions of the house to which the flames had extended. Fortunately but a light wind was stirring at the time, which cleared the flames slightly to the east, or efforts to save the building would have been futile. The two specific charges which formed the subject of the investigation were, first, that he appropriated to his own use certain sums of money from the commission paid to Mr. Poirer's Church, Toronto, and second, that he uttered falsehoods with respect to Mr. Dodge. Both of these charges were proved to be true and the Commission so reported.

This did not satisfy the House, who demanded another examination. His demand was allowed by the Lord Bishop, who was upset by Canon Ramsey's lawyers, who discovered that all such commissions must have been approved upon them. A new appointment will probably be made and the investigation completed in time to report to the House of Commons next month. It is unfortunate that such a scandal should have arisen. But Canon Ramsey has no one but himself to blame for the trouble developments have taken. As he has made his bed he lies in it.

The fire was caused by a small fire in the barn, which started within a few feet of the main building, was discovered to be in fire, and in spite of the efforts of the firemen, it was not extinguished until the main building was nearly a total wreck. A horse and a cow which were in one part of it were rescued, but a number of hives were burned. Mr. Winkler, who owned the barn, was the only person who was not next to the burning barn, and pails of water were used with success in preventing the spread of the fire until the arrival of the fire engine, which, with but a scanty supply of water, kept the building wet.

Road Manufacturers, etc.

HAVE leased that splendid New Shop
over Bedick and Thompson's new
store, and in the south side of Main
Street, where they have the use of Machinery
which enables them to compete with any
one in Town. Call and see.
Belleville, Nov. 11, 1872.

George Coburn & Bro.,
WILL offer to the Trade and customers,
their whole stock of
Port & Sherry Wines
AT COST PRICE.
BROWN'S OLD STAND, BELLEVILLE.
December 10, 1872.

THEIR LIQUID EXTRACT OF BEEF
And Trade Invigorant is the finest
Tonic, Stimulant and Nutrient,
remedy for all weaknesses of the stomach,
indigestion, consumption, loss of appetite,
depression of spirits, prostration, fever, ague,
cholera, all female and children's maladies,
cervical neuralgia, sick headache, sea sickness
and all infirmities. This valuable article
is sold by Hotel, Grocery, and Druggists
throughout Canada.

Only One Dollar.
10,000 SOLD.

It is safe to say that of all the inventions
of the present day, none have created
more satisfaction than the
LONDON REPEATING WATCH.

The idea of making a watch for the small
size of One Dollar, seems an utter impossibility,
but it has been accomplished, and the
perfect time indicator produced, which
will show how it was ever seen. Besides that,
each watch contains a Compass and Sun Dial,
without extra cost. The London Repeating
Watch is got up in the most elegant style,
with a handsome case of Gold, which is
an exact imitation of Gold, glass crystal,
steel and metal, and a white enamel
dial, and is of the size of an ordinary
watch. Each one is warranted to denote
correct time, and to keep in order for
years. In the same case is a Sun Dial,
and a perfectly accurate Compass, worth of itself
the amount charged for the whole
Watch. Every one who sees one, everybody
can now have a watch for himself. Agents,
Peters, & Co., make \$10 a day selling them.
A sample sent on receipt of \$1, or for \$1.
Send all sums over \$2 by registered letter to
the Manufacturers, Agents for Canada,
THE EUREKA MANUFACTURING CO.

SPECIAL NOTICES.

AVOID QUACKS.—A victim of early
indiscretion, causing nervous debility,
premature decay, etc., having tried in vain
various advertised remedies, has discovered
the cause of his ailment, which he will
send to his fellow-sufferers. Address
E. H. BROWN, 75 Nassau street,
New York, Sept. 17th.

PHOSPHATE is Nature's great fertilizer
and restorer, and is equally
valuable to the growth of the Animal and vegetable Kingdom. Under their use, grain, herbs
and trees, muscle and nerve, attain a full
and healthy development. Every individual
laborer employs them to fertilize the soil, and
every scientific Christian proclaims them to be
essential to the human system. Of course
this valuable medicine is the most efficient
and agreeable in the treatment of all
debility, of Phosphorus and Calcium. By
taking it for a few weeks, chronic weakness
disappears, the system is restored, and the
vital character rapidly improved, the whole
organization becoming renovated and purified,
and all the organs restored to a vigorous action.
Sold by all druggists.

Howard Association, Philadelphia, Pa.
An institution having a high reputation for
honesty and professional skill.

from Great St. James Street.

He has also Arrow's Family Shuttle Sewing Machine. Price, \$28.
JAMES BARRETT,
PATENTEE AND MANUFACTURER.

Belleville, Ont., July 31, 1871

ALBION HOTEL.
MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAN FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF
the general travelling public in the United States, as well as of Canada, when visiting
Montreal on business or pleasure. It is centrally located on McGill Street, the great
thoroughfare and commercial centre of the city, commanding a magnificent view of the
River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and
Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and
everything arranged with a view to the comfort of guests. As one of the largest Hotels in
the Dominion, having ample accommodation for 500 guests, while kept in first-class style
the moderate sum of \$1.50 per day will be charged as herebefore. The travelling com-
munity will consult their own interests by recommending the Albion Hotel when visiting
Montreal.

FOR CLEANING AND POLISHING
Silver, Electroplate, Glass, &c., &c.
Tablets, &c., &c.

OAKLEY'S
WELLINGTON KNIFE POLISH
Prepared expressly for the Patent Knife Cleaning
Machine. Indispensable to all parties engaged in
knife business. Knives constantly cleaned with
it have a brilliant polish equal to new. Half
pint, 50 cents; and 100 cents, \$1.00 and 40
cents.

OAKLEY'S
INDIA RUBBER KNIFE BOARDS
Prevent injury in cleaning and injury to the
knife. The knife's Wellington Knife Polish should
be used with the Board.

cholera, all female and children's maladies,

cervical spinal meningitis, tick headache,

dizziness and indigestion. A valuable article

sold by H. H. Rogers, Grocers and Druggists

throughout Canada.

Only One Dollar.

10,000 SOLD.

It is safe to say that all the inventions

of the present day, none have created

more satisfaction than the

LONDON REPEATING WATCH.

The idea of making a watch for the small

sum of One Dollar, seems at first impos-

sible, but it has been accomplished, and

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

The watch is made in England, and is

the most perfect time indicator produced.

SPECIAL NOTICES.

A VOID QUACKS—A victim of early

indiscretion, suffering severely from

premature decay, &c., having tried in vain

every advertised remedy, has discovered

simple means of recovery, which he will

be free to his fellow-sufferers. Address

J. H. REEVEN, 75 Nassau Street, New

York, N.Y. 1872.

DOMINION PARLIAMENT.

MONDAY, May 10.

In the House of Commons, Sir John

Macdonald stated that he had been in-

structed by the Governor-General to in-

form the House that the Hon. the Sec-

retary of the Navy had been de-

clared for instructions in reference to the

action which the House of Commons had

requested him to take on the New Brun-

swick School Laws.

After several bills had been advanced

a stage, Mr. Cartwright presented the report

of the Committee on the most direct route

to Europe. The advantages of the Port of

Louisbourg were pointed out, after which

the motion was withdrawn, the Government

promising to consider the question fully

during recess.

A long debate took place on Mr. Taylor's

printing contract, and finally a division

was taken on a motion to increase the rate

of printing 75 per cent, which was car-

ried, the vote being 71 for, and 70 against.

The House then resumed the discussion

on the resolutions concerning the re-adjust-

ment of the debts of the Province.

The resolutions were reported from Com-

mittee and read a first and second time. A

bill founded on the resolutions was intro-

duced and read a first time.

The House adjourned at 2.40 a. m.

Port & Sherry Wines
AT COST PRICE.
BROWN'S OLD BRAND, BELLEVILLE,
December 10, 1873.
LEIGH'S LIQUID EXTRACT OF BEEF
and Tongue is the finest
Food, Stimulant and Nutrient. A rare
remedy for all weaknesses of the system,
indigestion, consumption, loss of appetite,
depression of spirits, headache, fever, ague,
cholera, all female and children's ailments,
cervical spinal meningitis, cold headache, sea
sickness and influenza. This valuable article
is sold by Hotel, Grocers, Grocers and Drugs
all over the world.
Belleville, Nov. 11, 1873. d
Only One Dollar.
10,000 SOLD.
It is safe to say that of all the inventions
of the present day, none have created more
astonishment than the
LONDON REPEATING WATCH.
The idea of making a watch for the small
sum of One Dollar, seems an utter impossibility,
but it has been accomplished, and the most
perfect time indicator produced, which
the world has ever seen. Besides that, each
watch comprises a Compass and Barometer,
and is a complete time indicator, and is
without extra cost. The London Repeating
Watch is got up in the most elegant style,
with a handsome case of Gold metal, which
is an exact imitation of Gold, glass crystal,
and steel and watch work, and a white enamel
dial, and is of the size of an ordinary
watch. Each one is warranted to denote cor-
rect time, and to keep in order for two years.
Enclosed in the same case is a Box and a
perfectly accurate Compass, worth of itself
twice the amount charged for the whole
Watch. Every one wants one, every body
can now have a Watch for himself. Agents,
Fellers, &c., make \$10 a day selling them.
A sample sent on receipt of \$1, or five for \$4.
Send all sums over \$5 by registered letter to
the Manufacturers, Agents for Canada.

LEIGH'S LIQUID EXTRACT OF BEEF

and Tongue is the finest

Tonic, Stimulant and Nutrient. A

remedy for all weaknesses of the stomach,

indigestion, consumption, loss of appetite,

depression of spirits, languor, fever, ague,

cholera, all female and children's maladies,

cervical spinal meningitis, cold headache,

stomach and indigestion. This valuable article

is sold by Hotelkeepers, Grocers and Druggists

throughout Canada.

Only One Dollar.

10,000 SOLD.

It is safe to say that of all the inventions

of the present day, none have created

more astonishment than the

LONDON REPEATING WATCH.

The idea of making a watch for the small

size of One Dollar, seems at first impos-

sible, but it has been accomplished, and the

most perfect time indicator produced, which

the world has ever seen. Besides that, watch

comprises a Compass and Dial, which

without extra cost. The London Repeating

Watch is got up in the most elegant style,

with a handsome case of Gold metal, which

SPECIAL NOTICES.

A VOID QUACKS.—A victim of early

education, causing nervous debility,

premature decay, &c., having tried in vain

every remedy, and feeling that his life was

drawing to a close, he was induced to try

Dr. HENRY'S Tonic. He writes: "I

feel that I am now a new man, and

am able to do all the work I wish to do."

PHOSPHATE is Nature's great fertilizer

and restorative. It is the only remedy

for the growth of the Animal and vege-

table Kingdom. Under their use, wheat,

barley, clover, and all other crops, and

every animal, including man, are made

stronger and more vigorous. It is the

only remedy for the consumption, and

all other diseases of the lungs, and

is the only remedy for the disease of the

kidneys, and all other diseases of the

urinary system. It is the only remedy

for the disease of the stomach, and

all other diseases of the digestive

system. It is the only remedy for the

disease of the liver, and all other

diseases of the biliary system. It is

the only remedy for the disease of the

pancreas, and all other diseases of the

digestive system. It is the only remedy

for the disease of the spleen, and all

other diseases of the lymphatic

system. It is the only remedy for the

disease of the thymus, and all other

diseases of the thoracic system. It is

the only remedy for the disease of the

trachea, and all other diseases of the

respiratory system. It is the only

remedy for the disease of the larynx,

and all other diseases of the

vocal system. It is the only remedy

for the disease of the pharynx, and

all other diseases of the

digestive system. It is the only

remedy for the disease of the

oesophagus, and all other diseases of the

digestive system. It is the only

remedy for the disease of the

stomach, and all other diseases of the

digestive system. It is the only

remedy for the disease of the

intestines, and all other diseases of the

digestive system. It is the only

remedy for the disease of the

rectum, and all other diseases of the

digestive system. It is the only

remedy for the disease of the

anus, and all other diseases of the

digestive system. It is the only

remedy for the disease of the

urinary system. It is the only

remedy for the disease of the

prostate, and all other diseases of the

urinary system. It is the only

remedy for the disease of the

bladder, and all other diseases of the

urinary system. It is the only

POT & Sherry Wines

AT COST PRICE.

BROWN'S OLD STOUT, BELLEVILLE.

December 10, 1873.

Only One Dollar.

10,000 SOLD.

It is safe to say that all the Inventions

of the present day, none have created more

enthusiasm than the

LONDON REPEATING WATCH.

The idea of making a watch for the small

one of Dollars, seems an utter impossibility.

But it has been accomplished, and the

most perfect time indicator produced, which

the world has ever seen. Besides that, a

watch comprises a Compass and Sun Dial,

without extra cost. The London Repeating

Watch is got up in the most elegant style,

with a handsome case of Gold metal, which

is an exact imitation of Gold, glass crystal,

steel and metallic work, and a whole ex-

traordinary, and is of the size of an ordinary

watch. Each one is warranted to continue

running, and to keep in order for two years.

Enclosed in the same case is a Sun Dial and

a perfectly accurate Compass, worth of itself

twice the amount charged for the whole

Watch. Every one wants one, every body

can now have a Watch for himself. Agents,

Patent, &c., make \$10 a day selling them.

A sample sent on receipt of \$1, or five for \$4.

Send all orders over \$5 by registered letter

SPECIAL NOTICES.

A VOID QUACKS.—A victim of early

indication, nearly losing his health

prematurely, &c., having tried in vain

every advertised remedy, has discovered

simple means of relief, which he will

send free to his fellow-sufferers. Address

J. R. HARRIS, 75 Nassau street, New

York. sept17-17

PROPHETIES are Nature's great fertilizers

and restoratives. They are equally ap-

plied to the growth of the animal and ve-

getable kingdoms. Under their care, grain,

tree, bone, muscle and nerve, sink a full

and complete development. Every intelligent

farmer employs them to fertilize the soil, and

to restore the physical properties thereof,

to render it capable of producing the most

abundant and healthy crops. It is a common

error to suppose that the use of chemical

manures is a substitute for the use of

Prophets. The latter are the only true

restoratives, and the only ones that can

be used with safety. They are the only

ones that can be used with safety. They

are the only ones that can be used with

safety. They are the only ones that can

be used with safety. They are the only

ones that can be used with safety. They

are the only ones that can be used with

be used with safety. They are the only

Noted Court.

(Before A. DUNCAN, Esq. P. M.)

MONDAY, May 26.

The case of *Karl vs. Carter* was dismissed.

The case of *abduction against William*

Curtis and that of *cutting and wounding*

the body of *John* were laid over to the

former until Saturday next, and the latter

until to-morrow.

THURSDAY, May 27.

CUTTING AND WOUNDING.

The case against *William* *Bruckner* was

proceeded with. The evidence showed that

the prisoner and the boy *John* had quarrelled

and fought, and that in the

struggle the prisoner had cut the boy's

arm. The commencement of the quarrel

seemed to rest upon *John* *Bruckner*. *Car-*

ter deposed that the wound was a fresh

wound, who is a sharp little fellow of be-

tween 11 and 12 years of age, cross-examined

the witness with considerable shrewdness,

and addressed the Court when necessary in

proper form. The law presuming that child-

ren under 14 years of age are incapable of

committing crime, and the evidence failing

to substantiate that the prisoner's knowledge

was greater than the law presumes, the

Magistrate dismissed the case with a reprimand,

cautioning the prisoner against a

repetition of the offence.

Prisoner, who was suspected of setting fire

to the barn at *Marquette*, was not arrested

on the charge, as the same point as to

knowledge of crime would have arisen.

Prisoner declared his innocence, and pro-

tested that he could prove an alibi if called

upon to do so.

ARREST.

Patrick *O'Hara* was charged with assault-

ing a boy named *John* *Hampson*. Defendant

urged that boy had been alone at the

doors, and had caught the plaintiff, and

given him a slap, but the testimony showed

that he had struck the wrong boy. A fine of \$5

and costs was inflicted on the prisoner.

him J. H. REEVES, 78 Nassau street, New

York.

PROBATIONER'S Notice.

Nature's great gift of fertility

and reason, which she has so graciously

bestowed upon the human race, is daily

being abused by the ignorant and

careless. Every individual who

employs them to fertilize the soil, and

thereby renders the soil more fertile,

is doing a good deed. It is the duty of

every individual to use them in a

reasonable and judicious manner, and

not to waste them. The following is a

list of the names of the Probationers

who have been appointed to the

probationary period, and who are

eligible for the office of Probationer.

Dr. W. W. WATSON'S Compound

of Hyposphosphites, is a
